

# Back to the drawing board.

The image on the front was produced by UrbanGrowth at the request of the community to provide an indication of how density might work.

Dear Minister,

I call on you to direct UrbanGrowth to go back to the drawing board on their proposal for the Central to Eveleigh precinct.

I demand real consultation, a transparent planning process, affordable housing, high quality community infrastructure and adequate open space as required by the NSW Government's own guidelines in the early stages of any new development and a redevelopment that prioritises public good not the public purse.
