An architectural model of the Redfern North Eveleigh Precinct Masterplan, displayed on a wooden table. The model is constructed from light-colored wood and shows a complex urban layout with various building heights, streets, and public spaces. A prominent feature is a large, multi-story building complex on the right side. The model is viewed from an elevated perspective, showing the overall form and structure of the precinct. A white sign with black text is placed in the foreground, identifying the project. The background shows a window with a view of a city street and a sign for 'macpac'.
