

# MAKE THEM TRY HARDER! EMBRACE WHAT WE HAVE, DON'T DESTROY REDFERN!!

## SAVE OUR REDFERN FROM GREEDY DEVELOPERS!

Property developers are planning to swallow up our local landmark the Rachel Forster Hospital by cramming **159** poorly-designed flats and **170** car spaces on the historic site.

Frank Sartor sold the site to Hurstville developer Kaymet Constructions in 2008. Since that time Kaymet has allowed the once proud Rachel Forster to rot, and now, without any consultation with the local community, is ready to rip down most of the buildings and trees and replace it with much larger blocks of cramped 1 bed and two bedroom flats aimed at property investors.

**DON'T BE FOOLED.** This is a cheap attempt to generate maximum profit with the least investment. Our community will have to live with the consequences for decades.

We know how great Redfern has become and can be. Our community deserves better designed and better quality housing, not more slums of tomorrow.

Why can't Redfern have a high quality development using the best architects such as the St Margaret's apartments in Surry Hills? Why do we **ALWAYS** get second best? Why is the developer so short-sighted?
