REDWatch

Redfern, Eveleigh, Darlington & Waterloo Watch Group

REDWatch maintains a website with information about news, activities and information about the area at www.redwatch.org.au and organises events to encourage community comment and participation.

REDWatch exists to:

1. Monitor the activities of the Redfern Waterloo Authority, and especially the RED strategy / Built Environment Plan to ensure:
 - a. The strategy benefits a diverse community
 - b. Communication and consultation is comprehensive and responsive
 - c. Pressure is maintained on authorities
2. Provide a mechanism for discussion and action on community issues.
3. Enhance communication between community groups and encourage broad community participation.

REDWatch is a group of community residents and friends from Redfern, Eveleigh, Darlington, Waterloo and Alexandria who support the existing diversity in these areas and wish to promote sustainable, responsible economic and social development.
