

DID YOU AGREE TO THIS?

Artist's Impression of the proposed Redfern

- Reduced green space in an already concrete city, especially the loss of Marian St Park.
- 18-storey buildings, where the TNT towers are only 11 storeys.
- Increased motor vehicle traffic on Wilson St & other streets.
- Work created in the area for professionals & not for locals.
- Residents from The Block not having the right to develop an adequate amount of housing on their own land.
- Moving of residents in the area rather than developing real solutions to helping the disadvantaged in the area.
- Refern becoming the next Chatswood.

Unsure of what this is all about?

Not sure what the Redfern Waterloo Authority are suggesting?
Need help clarifying what's been planned for your community?

**Come to a community BBQ
& info session organised
by locals for locals!**

**Saturday 8th April, 2006
11am, Marian St Park**

www.redwatch.org.au www.marianpark.net

Currently comments are being collected for the draft Redfern-Waterloo Built Environment Plan. If you're unable to come to the info session, please go to the RWA website, www.redfernwaterloo.com.au to find out more and submit your thoughts and comments on their plans. Alternatively, write your comments below and if you walk past on Saturday we'll collect them and pass them onto the RWA for you.
